SUMMARY

Motivated and self-taught front-end developer with a strong foundation in HTML, CSS, and JavaScript. Experienced in building and redesigning websites from online templates and personal projects to enhance coding skills. Eager to apply knowledge in a professional environment and continue learning new technologies. Looking for an entry-level opportunity to grow and contribute to a development team.

EXPERIENCE

Self-taught front-end developer with a strong foundation in HTML, CSS, JavaScript, and various frameworks. Created and modified websites through practical projects, demonstrating the ability to apply theoretical knowledge to real-world scenarios. Led a graduation project addressing youth social issues in Egyptian society, effectively organizing team activities and facilitating discussions. Committed to continuous improvement through self-learning and the completion of personal projects, showcasing adaptability and a passion for building user-friendly, responsive web interfaces.
